SUMMARY

Computer Science Engineering student with strong foundations in Data Structures, Algorithms, OOP, and Full-Stack Web Development. Experienced in building AI-powered and responsive web applications using Java, JavaScript, React.js, Node.js, REST APIs, and databases. Passionate about software development, UI/UX design, problem solving, and building real-world applications through hands-on projects.

EDUCATION

B.Tech in Computer Science Engineering	2024 – Present
BVRIT Hyderabad	GPA: 8.48/10.0
Intermediate	2022 – 2024
Sri Chaitanya Junior College	Score: 957/1000
Class X (SSC)	2022
Sri Chaitanya School	GPA: 9.8/10.0

SKILLS

- **Programming Languages:** Java, C, Python
- **Core CS:** Data Structures & Algorithms, OOP, DBMS
- **Web Development:** HTML, CSS, JavaScript, React.js, REST APIs, Node.js
- **Design:** Responsive Web Design, UI/UX Design, Figma
- **Tools:** Git, GitHub, VS Code, Cursor
- **Databases:** SQL, MongoDB

PROJECTS

The Gifting Co. – Gift Recommendation Platform

- Developed a web-based application to generate personalized gift recommendations based on user preferences and occasions
- Designed structured input pipeline to improve recommendation relevance
- Developed responsive UI for seamless cross-device experience
- **Tech Stack:** JavaScript, HTML, CSS, REST APIs

StyleSelf – AI-Powered Personal Styling Platform

[GitHub](#)

- Developed an AI-powered fashion styling web application for personalized outfit recommendations
- Designed responsive modern UI/UX for wardrobe and outfit workflows
- Built recommendation logic for matching outfits and accessories
- Implemented personalization features based on user preferences and occasions
- **Tech Stack:** React.js, JavaScript, HTML, CSS, Vite, Git/GitHub

TRAINING PROGRAMS

AI & Python Training – Vishwam AI

May 2025 – July 2025

- Completed structured training in Python programming and foundational Artificial Intelligence concepts
- Worked on problem-solving exercises involving data processing and algorithmic logic
- Gained understanding of AI fundamentals including data handling and basic model concepts

CERTIFICATIONS

• Data Structures (CS302PC)	CodeChef
• Object-Oriented Programming in Java	CodeChef
• Generative AI: Prompt Engineering Basics	IBM — Coursera
• Crash Course on Python	Google — Coursera
• Java Programming for Beginners	IBM — Coursera
